OPEN LETTER

Dear Valued Partners and Customers,

In the context of the world facing serious challenges of environmental pollution and the scarcity of clean water resources, the development of sustainable and efficient household & commercial solutions for the water treatment sector has become an urgent necessity. In Vietnam, this issue is receiving increasing attention, especially amid rapid urbanization and the growing demand for improved living standards.

Founded in 2014, **ROSON VIETNAM JSC** has gradually affirmed its position as one of the leading supporting industrial manufacturers in the clean water sector. **We specialize in providing high-quality mechanical and engineering plastic products, serving clean water filtration systems, refrigeration equipment components, and OEM & ODM services in the commercial water purifier industry** - contributing to helping businesses optimize costs, ensure quality, and maintain production schedules.

In addition to our standard product lines, Roson's strength lies in OEM & ODM manufacturing customized to your specific technical requirements. Bring us your designs, specification requirements, and ideas - and we will transform them into precisely engineered products, especially suited for partners seeking flexible, tailored, and high-quality solutions.

Not only focusing on manufacturing, **ROSON VIETNAM** is committed to pursuing sustainable solutions in technology, materials, and operations to address the challenges of cost, performance, and environmental impact for both domestic and international partners. Our products meet Vietnam's strict quality standards. They are also designed for export, fully compatible with technical requirements and large-scale supply capabilities.

With modern production lines, rigorous quality control processes, flexible customization capacity for each project, and a highly skilled technical team, **ROSON VIETNAM** aspires to become a trusted partner of global enterprises in the water treatment and supporting equipment industry.

We strongly believe that through our expertise, commitment to quality, and long-term cooperation spirit, **ROSON VIETNAM** will be a trusted and reliable link in the global supply chain, contributing to cost optimization, product efficiency enhancement, and sustainable growth alongside our partners.

Sincerely,

ROSON VIETNAM JSC
General Director

ORIENTATION AND VALUES

In the context of global water pollution becoming an increasingly serious issue in Vietnam, **ROSON**'s products not only contribute to improving water quality but also play an essential role in achieving sustainable development goals.

With export orientation and continuous technological innovation, **ROSON** affirms its commitment to developing Vietnam's supporting industries - an important step for the country to gradually integrate into the global value chain.

BUSINESS AREAS

ROSON VIET NAM specializes in manufacturing high quality supporting industrial products, playing an important role in the commercial clean water sector and related industries. We focus on the following key areas:

01 Precision Mechanics Casting

Casting and machining metal components (copper, aluminum, zinc, etc.), combined with surface treatment. Our products are used as components in RO water purifier & dispenser systems such as replacement filter accessories, piping systems, heating/cooling coils, valves, etc.

02 Customized OEM & ODM Manufacturing

Designing, manufacturing, and assembling components such as RO water purifiers, hot-cold water dispensers, and custom products upon request. With flexible processes and diverse material options, we can meet specific needs from our partners.

03 Refrigeration & Cooling/Heating Components

Supplying essential parts such as heating & cooling coils, copper filters drier, hermetic compressor, and components supporting refrigeration and air-conditioning equipment.

04 Plastic Components

Manufacturing plastic parts within a commercial water dispensers such as filter housing, wrench, water tank, and other related accessories. Our products comply with strict Vietnamese and international standards, offering high precision, durability, and reliability for various applications.

> **ROSON VIET NAM** is particularly strong in producing water purifier components and hot–cold water dispenser parts, serving commercial household markets.

ROSON

Kaizen Innovation, Pure Results

COMPANY HISTORY

ROSON VIET NAM CO., LTD was established with the goal of providing component and technical supporting solutions in the fields of water purification, refrigeration equipment, and customized OEM & ODM manufacturing. As a young enterprise, ROSON started by focusing on market research, building efficient production management processes, and developing a highly skilled technical team.

With a long-term vision and a sustainable development strategy, **ROSON** has gradually expanded its operations and production capacity. Our investment of up to $10 million in a new manufacturing plant at the Dong Van I Industrial Zone Expansion in Ninh Binh Province marks a significant milestone in our development journey.

This project not only demonstrates **ROSON**'s commitment to modern production infrastructure but also enhances our manufacturing capacity, creates hundreds of new jobs, and contributes to local economic growth

In the context of Vietnam accelerating industrialization and building domestic supply chains, **ROSON** positions itself as an essential link in the high-tech manufacturing ecosystem - contributing to reducing import dependency and expanding export markets in the future.

CONNECTING TECHNOLOGY

Leading in Quality

VISION, MISSION, CORE VALUES

01 VISION

ROSON VIET NAM aims to become a pioneering enterprise in the supporting industry for the clean water sector, with the strategic goal of becoming a reliable partner in national and international supply chains. We are committed to contributing to the process of modernization, enhancing community living standards, and promoting the development of green, sustainable, and globally integrated supply chains - thereby positioning Vietnam more deeply within the global value chain.

02 MISSION

ROSON VIET NAM is committed to delivering high-quality supporting industrial solutions that meet the requirements of sustainable development. We continuously innovate in technology, enhance production flexibility, and support partners in optimizing costs while ensuring quality and efficiency. At the same time, we actively contributes to economic and social development, creating jobs and supporting the advancement of Vietnam's supporting industries on the global stage.

03 CORE VALUES

COMMITMENT TO QUALITY

Every product is strictly inspected to ensure high precision and durability in accordance with international standards.

INNOVATION & FLEXIBILITY

Continuously improving technology and processes to quickly respond to customer requirements, especially in OEM projects.

Kaizen - Continuous Improvement

Applying the Kaizen philosophy across all operations, continuously optimizing production, enhancing efficiency, and reducing waste.

TOWARDS SUSTAINABLE DEVELOPMENT

Step by step applying eco-friendly materials, saving energy, reducing emissions - moving towards green production models.

SOCIAL RESPONSIBILITY

Respecting labor rights, promoting employee welfare, and actively supporting and contributing to local community development.

TRANSPARENCY & LONG-TERM COOPERATION

Building trust on the foundation of transparency, integrity, and long-term commitment with partners.

WHY CHOOSE ROSON

ADVANTAGES IN VIETNAM

EXTENSIVE FREE TRADE AGREEMENTS

- Access to global markets: Benefit from low or zero export tariffs to key markets such as the EU, Japan, China, South Korea, Canada, Australia, New Zealand, and ASEAN countries.
- Lower production costs: Optimize supply chains with imported raw materials and components, ensuring highly competitive pricing.
- Enhance supply chain resilience: Positioning Vietnam as a strategic base for diversified supply and risk reduction, while expanding global market reach.

ROSON'S STRENGTHS

COST OPTIMIZATION

- With a modern and automated production system plus Vietnam's cost advantages, Roson helps clients save up to 20–30% in production costs and supply chain expenses.

STRONG MANUFACTURING CAPACITY

- Equipped with over 60 modern CNC machines and a workforce of 300 skilled employees, enabling flexibility and scalability for large OEM orders.

SUSTAINABLE PARTNERSHIPS

- Committed to building long-term, efficient partnerships with clients through a green supply chain and export-standard products.

"EFFECTIVE SUPPORT
Driving Growth Together

HUMAN RESOURCES CAPACITY

With a team of well-trained engineers and a highly experienced workforce, **ROSON VIETNAM** specializes in precision mechanics casting and customized OEM & ODM manufacturing for supporting industry. This expertise allows us to flexibly manage the entire process, from design and production to quality control, to meet diverse customer requirements

PRODUCTION CAPACITY

- **Existing plant:** Duyen Thai Industrial Park, Thuong Tin District, Hanoi
- **New Factory Under Development:** Dong Van II Expanded Industrial Park, Duy Tien Town, Ha Nam Province

With a modern equipment system and well - designed production processes, **ROSON** flexibly meets diverse requirements from domestic and international customers, from precision mechanical engineering to technical plastic components and OEM & ODM product design.

PRODUCTION WORKFORCE **300** skilled workers, well-trained to ensure efficient, accurate, and stable production processes.

PRECISION **FLEXIBILITY** **SPEED** **KAIZEN**

PRODUCTION PROCESS

To ensure products meet high-quality standards and keep up with progress, **ROSON VIETNAM** applies a modern, closed production process that is strictly controlled through the following steps:

01 RECEIVING & DESIGN

- Receive customer information, drawings, or requirements.
- R&D engineers analyze and propose technical solutions and suitable product designs.

02 PLANNING

- Identify raw materials, production schedule, and manufacturing methods.
- Ensure optimal cost, timeline, and supply capacity.

03 MACHINING & PRODUCTION

- Perform precision machining and produce plastic products using modern production lines.
- Apply advanced technology to ensure accuracy and high efficiency.

04 QUALITY CONTROL

- Inspect the quality of input raw materials.
- Control each stage of the production process.
- Conduct final inspection before delivery to the warehouse.

05 FINISHING & PACKAGING

- Products undergo surface treatment, assembly (if required), and packaging according to standards.
- Customize packaging and labeling based on customer OEM/ODM requirements.

06 DELIVERY & AFTER-SALES SERVICE

- Deliver products to customers on time.
- Provide warranty policies, technical support, and customer care throughout product usage.

LIST OF FEATURED PRODUCTS

“In Partnership with the CLEAN WATER INDUSTRY

COMPANY ACTIVITIES

01 PRECISION MECHANICAL MANUFACTURING
Machining, casting, and surface treatment of metals, applied in drainage systems and industrial equipment.

02 PLASTICS PARTS MANUFACTURING
Producing plastic components serving the clean water industry, refrigeration, and household equipment.

03 OEM/ODM
Partnering in the production of spare parts, water filtration accessories, and industrial equipment tailored to customer requirements.

04 RESEARCH & DEVELOPMENT (R&D)
Continuously improving engineering processes, materials, and designs to enhance product quality and reduce costs.

05 GLOBAL PARTNERSHIP
Participating in global supply chains, exporting products to potential international markets.

06 SOCIAL RESPONSIBILITY
Contributing to local job creation and supporting community development.

ACKNOWLEDGEMENT

Dear Valued Partners and Customers,

Since its establishment in 2014, the development journey of **ROSON VIETNAM JOINT STOCK COMPANY** has been one of relentless effort to bring high-quality industrial products and services, serving the clean water industry, refrigeration, household equipment, and other related fields. We are honored to have our Partners and Customers accompany us throughout this journey, together finding solutions and achieving mutual success.

Today's achievements of **ROSON VIETNAM** would not have been possible without your trust, companionship, and invaluable support. This has been a strong driving force for us to constantly innovate, apply modern technology, enhance production capacity, and continuously improve product and service quality to better serve you.

With the trust and companionship of our valued Partners and Customers, Roson Vietnam has always been a reliable companion. In the future, Roson will continue to make every effort to provide the best products and services, while strengthening cooperation to achieve sustainable success with you on the path ahead.

With sincere gratitude, we look forward to continuing our partnership with you!
